

Summer 2023

Camp Catalog

American Girl Doll by Scarlett Goodwin (Anything Under the Sun) \$200

Aligning with the purpose of American Girl, we seek to bring out the joy of girlhood. Through adventurous stories and imaginative play, we give girls the chance to find inspiration to be their best, to grow a strong mind and spirit, to laugh while learning to be resilient, confident, and kind. They will receive a special visit from Carolina Cotillion's Ann Cherry, a CCS grandparent and a private etiquette instructor. She will teach these ladies the dos and do nots of proper etiquette, while focusing on the seven pillars of Christ Covenant School...respect, order, unity, diligence, integrity, humility, and courage. Watch your child grow spiritually and socially, while building confidence along the way.

Animals of the Ark Dance by Susan Nguyen (Arts) \$150

In this camp, students will explore animals through dance, stories, and crafts. If your student loves to dance and animals, this camp is for you!

Astronomy by Anadi Nava (Academics) \$175

The sky's the limit this week as your child will get to explore the world above them. From learning about constellations, planets, and lunar craters to our sun's surface, exploring light diffraction, and building our own water rockets! Campers will also have the opportunity to retrace Galileo's footsteps and explore the universe as he did – through the lens of a simple, refracting telescope that's easy enough to assemble in camp, yet powerful enough to see all that lies above.

Basketball by Lynn Seyler (Athletics) \$150

I am excited to be able to work with your kids during basketball camp this Summer. I hope they will begin/continue to want to play in the future on the CCS basketball teams! Go Spartans!!

Calligraphy/Lettering by Lara Smith (Arts) \$175

In this camp, you will get to explore your creative side and develop the skill of lettering through calligraphy. Whether your need is solely introductory or learning advance techniques, Lara will meet you at your level to produce beautiful works of art.

Cheer Intensive by Taylor Evans (Athletics) \$150

In this camp, students will focus on cheer techniques, chants, and stunts within a structure designed to take squads to the next level and help deepen bonds among teammates. A special guest coach from East Carolina will join us to provide instruction on more advanced tumbling stunts throughout the week.

Chess by Steven Smith (Anything Under the Sun) \$150

As we begin a new year, the Family Chess Club would like to welcome those new players visiting for the first time. We meet twice every week at Apt To Learn, 650 E Firetower Rd, Suite B, in Winterville. Thanks to owner, Michelle Cetner Brown, for hosting our meetings in such an awesome facility. Every Tuesday evening from 6:00-8:00pm, we teach kids ages 3+ chess tactics and offer all ages the opportunity to play across-the-board chess games. Every Wednesday evening from 6:00-9:00pm, we play across-the-board chess games. Throughout the year, we host sanctioned USCF chess tournaments. We offer a variety of family-oriented events to celebrate holidays as well. All skill levels are welcome. Chess sets are provided, but individuals are encouraged to bring their own sets to share with the group. Chess has grown in popularity in recent times, and we stand ready to share our love for the game of Kings with the local community.

Christmas in July by Lara Smith (Arts) \$175

Bring on the Holiday Cheer! This summer we are bringing back the joy of the holiday season. From making Christmas ornaments to decorating gingerbread houses to drinking hot chocolate and singing Christmas carols, your child will get to experience the most wonderful time of the year in July!

Exploring Nature by Becky Clark (Anything Under the Sun) \$150

Discover the outdoors with me. From threading leaves to bug hunts, science experiments, and gardening, we will do a little of it all, for literally the SKY is the LIMIT. Your children will get to let their curiosity run wild as we explore God's creations. This will be a very interactive, hands-on, exploratory camp, your child will not want to miss!

Escape Room by Ginny Bland (Anything Under the Sun) \$175

Do you love a good mystery? Decoding challenging puzzles? Working against the clock? Then join us for an exciting week of all things ESCAPE ROOM. We will work in teams to break out of a couple different escape rooms, and then become even more expert "escape artists" as we design and run our own escape room! We will learn some behind-the-scenes strategies for what makes a great escape clue, develop our own immersive storyline, study different puzzle types and systems for puzzle flow, and experiment with some fun "extras" like invisible ink, black lighting, themed props, and different types of locks.

Fraction Boot Camp by Anna Ipock (Academics) \$150

Do you need a fraction refresher before next school year? Then Fraction Boot Camp is for you! Key concepts include: naming and drawing fractions, improper fractions, mixed numbers, comparing fractions, adding and subtracting fractions, ordering fractions, word problems, and more.

Guitar by Annette Cox (Arts) \$150

This camp will cater to beginning to intermediate level guitar students! We will learn the basic techniques of playing, along with reading music, lead sheets, chord charts, strumming techniques, and more! Bring a guitar and pick, and we will teach you the rest!

JumpStart by Jeannie Brown (Academics) \$35 per session

Ever wish you could get a quick refresh on a skill or subject or a head start on the upcoming school year? Well then . . . Jumpstart is for you! The target audience for Jumpstart is twofold. First for students new to our school, this is an opportunity to work on any skills or subjects that may be new or different from their previous school experience. Secondly, for current students who would like to continue their growth by revisiting and practicing some aspect of their learning from the previous school year, Jumpstart is for you, too. During the weeks Jumpstart is offered, students will work individually with the facilitator during a 45-minute interactive session that targets those skills and subjects needed or requested. Parents can tailor the dates and times each week to fit their and their child's schedules.

Latin by Jason Dulworth (Academics) \$150

-per aspera ad astra "through difficulties to the stars" Latin is not dead. It isn't even unhealthy. On the contrary, it remains the best way of forming a sound mind ready to study the West. What's more: it's delightful! In this one-week camp, students will gain easy facility with the language as they read, write, hear - and speak - in the language upon which our society is built.

Lego Builders by Nathan and Robin Hudson (Anything Under the Sun) \$175

Welcome all junior brickmasters!!! We're excited to work on Lego projects that help students to observe the world around them, learn principles of design, plan a project, and then execute that plan, all while having tons of fun. Each day we'll focus on one aspect of design. Students will learn about real-world examples of why that aspect is important and then create a Lego project that incorporates the design elements they are learning. Projects will be interspersed with fun activities, Lego building techniques, working with motors and periods of peer review where your junior builder will learn to give and receive helpful advice on how to improve a build.

Lockdown by Regan Waters (Summer Finale Event) \$100 per child

As a mother of four, I have heard the question more than once, “Do teachers live at school?” I followed-up this question with storytime reading, My Teacher Sleeps In School by Leatie Weiss.

It brought my children many laughs, but it also had them wondering what it would be like to actually live at school. It was my children’s imagination that birthed this slumber party overnight event. A pizza dinner with a movie playing on the big screen, followed by an indoor scavenger hunt, flashlight tag and the ultimate glow party are a few of the evening’s activities. The night will still be young as we praise our savior with guitar music from Christ Covenant’s very own Randy Bolling, enjoying s’mores and closing in prayer.

Ninja Warrior by Ashley Holloman (Athletics) \$200

Ages 4-8: Our Lil' Ninjas will develop basic skills such as running, jumping, balance, strength, and coordination. We will introduce ninja skills and courses including warped walls, rings, cargo net, and more ANW style obstacles in a FUN environment. This class is an excellent opportunity to develop skills and confidence for our older Warrior Zone classes.

Ages 9-12: Jr. Ninjas will swing, jump, climb, and more! We will teach & practice ninja skills and obstacles in fun and challenging ways. Along with building strength, balance and coordination, Jr. Ninjas will develop valuable social skills such as following directions, teamwork, problem solving, and group communication.

Princess Ballet by Susan Nguyen (Arts) \$150

In this camp, students will explore the stories of princesses through ballet, fairytales, and crafts. If your student loves to dance and princesses, this camp is for you!

Princess Tea Party by Anadi Nava (Anything Under the Sun) \$175

Does your daughter love to play dress-up or play kitchen or serve her furry friends tea, then this is the camp for her. These ladies will leave each day feeling like royalty as they discover each one of them is a princess all the time because their father is the King of all Kings and Lord of all Lords. They will receive a visit from Carolina Cotillion’s Ann Cherry, a CCS grandparent and a private etiquette instructor. She will teach these ladies the dos and do nots of proper etiquette, while focusing on the seven pillars of Christ Covenant School...respect, order, unity, diligence, integrity, humility, and courage. Watch your child grow spiritually and socially, while building confidence along the way.

Renee's Art Workshop by Renee Yongue (Arts) \$175

As many of you have heard me say, God was our first artist. In Genesis, we read, "In the beginning, God *CREATED* the heavens and the earth." It is through his works that we were created. In this workshop, we get to create our own masterpieces that we are proud of. Your child will look upon it and say, "it is very good" as He looked upon us.

Robotics by Ginny Bland & Ann McClung (Academics) \$200

MBOT: BUILDING and CODING ROBOTS OH MY! Join this summer camp opportunity to get your hands on building a robot! Learn how to code your robot to complete tasks like following a maze, or detect obstacles to avoid, or program them to flashlights in a sequence, or make a song with coding tones! You can race them or make them play soccer! The possibilities are endless! Learn how to do it all here! When camp is over, you can take your robot home and show off your coding and robotics skills to your friends and family!

SUMOBOTS: Ever watched the show Battlebots?? Well in this camp, you will design and construct simple robots controlled by wireless controllers to battle "sumo style" by trying to push your opponent out of a battle square within a time limit! Let your creativity soar as you design a Sumobot for battle! Make it a defensive Sumobot that can do quick and evasive maneuvers or a Sumobot built for the offensive attack! Learn how to use constructing tools safely through this hands-on camp! And then battle to the last Sumobot!

Sew Creative by Johnna Modlin (Anything Under the Sun) \$175

We will have SEW much fun creating together! Sewing is a great way to practice patience and problem-solving skills, while building self-confidence, being creative and having FUN! Students will be taught important hand-sewing skills that they can use throughout their lives, such as threading a needle, basic stitches, and sewing on a button. Also, campers will experience the joy of selecting a fabric and transforming it into something amazing and useful! During this process they will learn some sewing lingo, the importance of ironing while sewing, how to use a pattern and a rotary cutter and of course... how to operate a sewing machine! On Friday students will come home with several projects that they created throughout the week, such as a pillowcase and a bag! We can't wait to see each campers' unique creations!

Soccer by Joel Grimm (Athletics) \$150

Soccer is the world's most popular sport played by all ages. Come be a part of our soccer camp where we will participate in drills, games, and scrimmage one another. Whether you have been playing soccer for years, or if you are coming to try it out and see if you enjoy it, there is a spot for you. Sessions are broken up by age group, so that you can all learn at your own development level.

Spanish by Anadi Nava (Academics) \$150

Why Spanish? Spanish and English both have Latin roots. Speaking Spanish makes understanding these other languages a lot more straightforward. Nourishing the curiosity of children with Spanish-language concepts can make it easier for them to understand English grammar. When kids exercise their minds in this way, it can boost their memory, concentration, problem-solving abilities, and creativity. I'm so excited to come alongside your child to explore the Spanish language.

Spartan Games by Darrell Ange (Athletics) \$175

Discover what makes a Spartan a Spartan. Come and learn about ancient Spartan culture as you are taught to unlock your hidden strengths and abilities. Spartan games will take place in a "Tribe" setting, teaching participants to push themselves physically and mentally. They will experience physical conditioning, strategic thinking, confidence building, trust/team building. All the while learning how these elements launch students into Spartan Athletics. The final day will result in a Tribe vs Tribe challenge to showcase the skills they have learned. Are you up to the challenge?? If so then, Shields up Spartans!!!

Splash Pad by Regan Waters (Anything Under the Sun) \$150

Your favorite activities of the summer will be brought to this camp. From sprinklers to the ultimate "Splash Pad" to water balloons and fun in the sun, your child will get their aquatic fix this week. It doesn't end there...team challenges and obstacles that make Field Day a time to remember will be what pushes this camp to an indescribable level.

Storybook Dance by Susan Nguyen (Arts) \$150

In this camp students will explore stories through dance and crafts. If your student loves to dance and a good story, this camp is for you!

Superhero by Anadi Nava (Anything Under the Sun) \$150

Calling all Superheroes!!!! Your child will get to explore his or her imagination as we become Superheroes for the week. Whether they are a fan of DC Comics or Marvel, they will get their share of an action-packed week from designing their own capes and masks to mapping out their own defense plan on-site to defeat the ultimate villain. Come and have a great time at our Superheroes camp.

Sweet Eats by Allison Phelps (Arts) \$200

Sweet Eats will be taking a turn this Summer from cookies to cakes and edible treats. Each day will take on a different theme while building upon the previous day's skill. From piping techniques and designs to exploring fondant to mastering the perfect balance between salt and sweet, your junior baker will begin to create some very delectable treats while using his or her imagination and creative style. Be amazed as your child joins you in the kitchen to share tricks of the trade.

Theatre by Taylor Evans (Arts) \$150

In this camp, students will learn basic theatre terminology, as well as dances and songs to a few of their favorite musicals. They will bravely explore new worlds and ideas, courageously create new characters, and practice their skills working with others through creative projects. We will foster a supportive environment for youth as they bring their individual ideas together to create new stories to share with an audience.
