

CHRIST COVENANT CAMP

PRESENTS

We are excited to announce...

Astronomy... led by Jordan Snow, is coming to Christ Covenant Camp June 2024. Registration opens Feb. 1st

Date

June 24-28, 1pm-4pm, Rising 2nd-6th

Cost

\$175

Jordan Snow has always loved school and learning. It was in middle school when he began to envision himself becoming a teacher. Mr. Snow graduated from ECU with a bachelor's in education degree in 2020. He taught in Pitt County Schools for three years. His goal is for his students to have as much fun learning as he does.

From the Astronomer...

The sky's the limit this week as your child will get to explore the world above them. From learning about constellations, planets, and lunar craters to our sun's surface, exploring light diffraction, and building our own water rockets! Campers will also have the opportunity to retrace Galileo's footsteps and explore the universe as he did – through the lens of a simple, refracting telescope that's easy enough to assemble in camp, yet powerful enough to see all that lies above.

~~~~~  
**Did you know?**

**A FULL NASA SPACE SUIT COSTS \$12,000,000.**

While the entire suit costs a cool \$12M, 70% of that cost is for the backpack and control module. However, the space suits that NASA uses were built in 1974. If these were priced by today's pricing, they would cost an estimated 150 million dollars!
